# Reduce, Reuse and Recycle in Stillwater

## Recycling facts:

- The average American creates 4.6 pounds of garbage each day or over 3 tons annually per family of four
- One ton of recycled paper saves 3,700 lbs of lumber and 24,000 gallons of water
- Recycling a soda can saves 96% of the energy used to make a can from ore
- Recycling employs 1.1M people nationwide

## How to reduce:

- Purchase items in bulk
- Avoid over-packaged products
- Choose durable goods over disposables
- Buy only what you need

## Reuse & recycling tips:

- Save time and energy by visiting drop-off sites on your way to other destinations
- Maintain and repair items
- Compost yard waste and food waste
- Use a self-mulching mower and leave grass clippings on the lawn
- Select hardy, native plants and trees that require less water
- Buy items with recycled content and “close the loop” by creating a market for recycled products

## If in doubt, throw it out!

Non-recyclable items mixed in with similar materials that are recyclable may contaminate a load of material and make it unacceptable for processing. (If so, the entire load may be dumped in the landfill.) If in doubt, throw it out.

## Recycling drop-off sites:

Self-service sites are available 24 hours a day. Allied Recycling does not have facilities to sort items by category. Do not leave mixed materials. Call 377-3880 if bins are full. Call 742-8269 to report illegal dumping.

- Babcock Park parking lot, 19th Avenue and Western Road
- Husband Street and Airport Road
- Skyline Elementary, Sunrise Avenue and Grandview Street
- 807 S. Perkins Road
- 3303 N. Marine Road – Coming soon! (Marine Road site to be fully attended six days per week.)
